

Environmental, Occupational Health & Safety Policy

Krishnapatnam Port Company Limited (KPCL) has a **Vision**

“To evolve as India’s largest gateway in the East Coast as the Port of Choice” with World-class Infrastructure, Productivity, Hinterland Connectivity, Unrivalled Customer service, Eco friendly with Sustainable development

To achieve this vision, we are committed to the following:

- Identify, prevent, control and minimize adverse environmental aspects and occupational health hazards, associated with seaport operations.
- Prevent pollution, injury and ill health to all port employees and port users.
- Continual improvement in environmental, occupational health & safety management systems and performance by setting objectives and targets which are measured at regular intervals.
- Conserve natural resources and reduce carbon foot prints.
- Strictly comply with all applicable legal & other statutory requirements.
- Develop and maintain highly motivated, trained work force for effective management of the environment, occupational health and safety.
- Evaluate, review and modify environmental, occupational health and safety management practices factoring regulatory requirements, community concerns and technological advancements.
- Developing lush green surroundings at the seaport, establish appropriate work culture, which is in harmony with nature.
- Promote implementation of 4R’s-“Reduce, Reuse, Recycle, Recover” among the employees and the local community for an inclusive and sustainable growth.
